

# INTRODUCTION

The two-book series **Password: COMMUNICATION for Kids** is designed for young learners who are about eight years old.

The objective of the series is to teach children how to communicate in English. Real-life dialogues are presented in each lesson and form the basis for the learning process, which happens through oral and written activities, games, and songs.

The diversity of activities ensures a dynamic learning environment which is especially enjoyable for children. Interactivity in the classroom brings the material alive and allows learners to communicate naturally while engaged in activities that are in perfect harmony with the interests of their age group.
