

ORDINAL NUMBERS

It's easy to form ordinal numbers: add **-th** to cardinal numbers. But notice that the ordinal numbers for 1, 2, and 3 are different. And, we modify the spelling when we make the ordinal numbers for 5, 8, and 9. Listen to these ordinal numbers, and then practice saying them.

THE DAYS OF THE WEEK

Take a look at Mr. Turner's and Mike's typical week.

Sunday
SUN or Sun.

Monday
MON or Mon.

Tuesday
TUE(S) or Tue(s).

Wednesday
WED or Wed.

Thursday
THUR(S) or Thur(s).

Friday
FRI or Fri.

Saturday
SAT or Sat.

NOTE

We always use capital letters with the days of the week, e.g., **Thursday, Sunday.**

THREE-DIGIT NUMBERS

Take a look at these examples with three-digit numbers from the lesson.

We write:

We say:

Room **212**

Room *two twelve*

Room **202**

Room *two-oh-two*

346 Lincoln Avenue

Three forty-six Lincoln Avenue

Here are some more examples.

We say:

Room *seven ten*

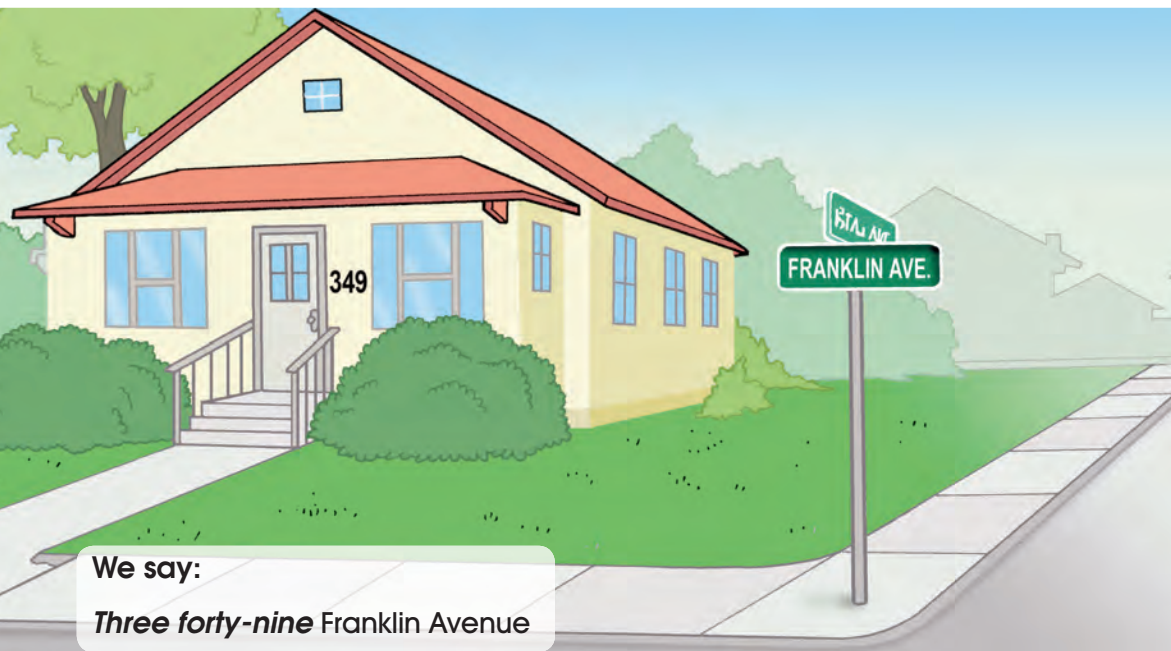

We say:

Room *one-oh-five*

We say:

Eight twenty-four Primrose Drive

We say:

Three forty-nine Franklin Avenue
